▲ For parcels over 1kg that are square or rectangular in shape, Australia Post will assess charges according to their actual weight or cubic weight equivalent, whichever is greater. The cubic weight is the parcel's volume in cubic metres multiplied by 250. Australia Post reserves the right to also apply cubic charges to a parcel weighing less than 1kg, and to parcels that are irregular or cylindrical in shape. Where an article is lodged which is in excess of the weighing capacity of an Australia Post retail outlet, an agreed charge will be applied which is fair and reasonable in all the circumstances. Where agreement cannot be reached, the office may refuse to accept the article.

● For Christmas Island 6798, Cocos (Keeling) Islands 6799 and the Australian Antarctic Territories 7151, see pages 14-15 of the Post charges booklet.

Note: Check that you are using the correct charges sheet for the postcode of the office of lodgement. Then determine zone for postcode of destination and refer to Table 1 for relevant charge.

Although correct at the date this guide went to print, post charges, compensation and other conditions are subject to revision from time to time and services may be modified, added to or withdrawn. Up-to-date information may be obtained from any Australia Post retail outlet.
